

RUSSIA – FAMILY CENTERS

The work at CDI is expanding as we are now working with two family centers for children with disabilities in Russia! One is in the town of Pesochnyy and the new one is in the city of Sestroretsk. The center in Sestroretsk is made up mainly of those in their late teens and early 20's. They are really a precious group and we are thrilled to be able to work with them and their families to develop their skills and abilities and to share the love of Christ.

We go to the homes of those who are physically unable to come to the centers. Above is the home of one of the families (actually it is not just their home but is shared with other families.) They have no running water, no indoor plumbing, and burn coal to stay warm in the winter. It is amazing that they were able to survive the bitter Russian winter.

We (along with our Russian partners MIR and New Hope) are also now starting to look into the possibility of opening a center inside the city of St. Petersburg. Please pray with us as we start to explore this possibility.
